

**Pre-Owned
Honeywell Aerospace Products**

When OEM or specialty components are not available, Honeywell delivers high quality pre-owned equipment for your retrofit or maintenance applications.

Your source for hard to find Honey

Serving the broad needs of the commercial air transport, business and general aviation, and Defense industries, as well as original equipment manufacturers (OEM) and aircraft maintenance providers, Honeywell delivers exclusive product knowledge and global support to meet your current and future equipment requirements. With our extensive inventory of new surplus and reconditioned equipment, we provide you with more choices, faster service, and increased value across the entire family of Honeywell products.

Our pre-owned equipment is sent through a rigorous AS9100 certified process to verify that each product meets with the highest standards of quality for operation. All of our refurbished and new surplus equipment comes with a limited warranty¹. Additionally, each product features documentation, including FAA Form 8130, EASA Form 1, and CAAC airworthiness approval tags, and compliance with ASA-100 certification requirements, verifying that all previous repairs were conducted either by the OEM or at an FAA-approved facility.

We can supply you with the following brands:

- Honeywell
- AlliedSignal
- Bendix
- Garrett
- Bendix/King
- Sperry

Honeywell provides an optimal solution for acquiring aerospace equipment when budgets are tight. With fast and efficient quote responses, we are uniquely able to provide you direct access to high quality, OEM-reliable parts and rare, unobtainable out-of-production aerospace equipment with a very flexible offering that includes exchanges, flat rate and cost plus.

¹Contact Honeywell for limited warranty terms and conditions.

well equipment.

Our entire new and pre-owned equipment inventory is owned by Honeywell and our stock is available for immediate purchase. In addition, we offer a buy back program for used Honeywell equipment or spares stock that can decrease inventory costs and create additional revenue for your operations. From avionics, engines, and auxiliary power units to starters, environmental control systems, wheels and brakes, and airframe accessories, Honeywell is the smart choice for your used equipment needs.

Global Network of Support Services

Honeywell's resources span the Americas, Europe Middle East, Africa, Asia and the South Pacific to deliver dedicated 24/7 service support. As a world leader in aviation aftermarket services, our global repair centers, logistics network and field services engineering teams are able to quickly repair, supply, and warranty equipment whenever and wherever it is needed.

Key Program Benefits

- High quality new and reconditioned equipment
- Broad spectrum of avionics, mechanical components, APUs and wheels and brakes
- Availability of rare and hard-to-find parts
- Competitive pricing
- Short lead time
- Reduced cost of ownership

Honeywell Aerospace
